This is a 2 MB file -- I hope it can get through your system and isn't held up until the overnight.....I double-checked that it contained Chapter 11.

Hello all:

We were unable to load the CSM documents to PREmis last night due to a disk space issue on the server that has been resolved. The text file on PREmis has been updated to include the chapters added last night. Two additional files have been added to the "Figures" and "Tables" directories containing the additional materials dated 2008-05-19.

Regards,

Len

Len,

The server had a disk space issue which has been resolved. The uploads should work now

Thanks

Ed
